RESOLUTION (TARIFF)

New Delhi, the 24th December, 1949

No. 9(1).T.B./49.—Under the Government of India, Department of Commerce, Resolution No. 218-T(55)/45, dated November 3, 1945, the Tariff Board enquired into the claim of the Bichromates industry for protection or assistance. Protection was granted by converting the then revenue duty into a protective duty at 30 per cent. *ad valorem* on potassium bichromate, sodium bichromate and of chrome compounds under Item 28(17) of the First Schedule to the Indian Customs Tariff. Under the provisions for automatic review of protected industries, of the Government of India, Ministry of Commerce, Resolution No. 30-T(1)/48, dated August 6, 1948, the Tariff Board have conducted a fresh enquiry. Their recommendations are as follows:—

- (1) the present item 28(17) of the First Schedule to the Indian Customs Tariff, making potassium bichromate, sodium bichromate and chrome compounds subject to a protective duty of 30 per cent. *ad valorem*, should continue up to March 31, 1952;
- (2) the policy of import control should take cognizance of the fact that the indigenous industry cannot only satisfy the total demand of the country, but also retain a surplus for exports;
- (3) Government should include bichromates as one of the chief articles of export;
 - (a) in all bilateral trade agreements, and
 - (b) in any scheme of assistance to be evolved to implement the recommendations of the Export Promotion Committee;
- (4) sufficient chrome compounds should be produced to prevent the consuming industries using substitutes;
- (5) substantial reduction in the cost of bichromates should be achieved;
- (6) export markets should be developed;
- (7) soda ash should be obtained at a reasonable price;
- (8) specific proposals should be made to the Railway Board for reduction of freight rates on raw materials;
- (9) a more economic utilisation of raw materials should be sought so as to lower the cost of production;
- (10) a by-product, sodium sulphate, should be recovered for supply, to the paper mills in India; and
- (11) the production of sodium sulphide from sodium sulphate should be undertaken and offered to the textile and other consuming industries at competitive prices.

2. Government accept recommendations (1) to (3), subject, as regards recommendation (3), to the industry taking steps for the disposal of the by-product, sodium sulphate

either after purification or after conversion into sodium sulphide, in order to reduce the cost of bichromates. Recommendations (4) to (11) concern the industry whose attention is drawn to them. As regards recommendation (8), however, it is brought to their notice that the concession of special freight rates where justifiable, between any given points is the responsibility of individual railway administrations concerned, with whom it will be for the industry to initiate negotiations.
